# Department of Defense Base Structure Report (BSR) FY 2006 Baseline

## I. INTRODUCTION

The Base Structure Report FY 2006 Baseline represents a consolidated summary of the Department of Defense real property inventory (RPI) as reflected in Military Departments' and Washington Headquarters Service's native real property databases as of September 30, 2005. The annual reporting of unclassified real property assets (land and facilities) is in accordance with Section 2721 of title 10 United States Code, *Real Property Records*, and culminates in the population of OSD's Facilities Assessment Database (FAD). The FAD has been the data source for the Base Structure Report since 1999 and is used as the authoritative data source for various OSD models such as the Facilities Sustainment Model (FSM), the Facilities Modernization Model (FMM), and the Facilities Operations Model (FOM). It is also used to answer senior DoD leadership and Congressional inquiries concerning specific RPI issues.

The 2006 BSR provides a comprehensive listing of installations and sites owned or used by the Department. For each site large enough to be individually listed in the report (inclusion criteria provided in Section II), a summary of buildings, square footage, BRAC 2005 actions, acreage, total plant replacement value (all facilities), and personnel is provided. Other pertinent information such as component and the name of the nearest city is also included. For any questions concerning this report, please send an email message to: [BSR@osd.mil](mailto:BSR@osd.mil). Electronic copies of this and past BSRs are available at <http://www.defenselink.mil/pubs> under reports.

The Department of Defense remains one of the world's largest "landlords" with a physical plant consisting of more than 571,200 facilities (buildings, structures and utilities) located on more than 3,700 sites, on nearly 30 million acres. The associated costs to sustain and maintain existing DoD facilities exceeded \$13 billion in 2005. In 2005, the Department began tracking the quality of its facilities and the initial reporting of quality status is summarized in Section IV. As the Department implements BRAC 2005 Closure and Realignment mandates, significant cost and facility quality benefits will be realized. Therefore, as the domestic base structure begins realignment to meet future force structure projections, the BSR will identify and track those sites affected by BRAC 2005. BRAC Summary charts are also provided in Section IV.

## II. CONTENT AND ORGANIZATION

The report is organized by State/Country and presented first as an overall DoD listing of all sites, then by each Military Service. Each record includes the site name, the component (Active, Guard, or Reserves), BRAC identification, the name of the nearest city, the number of buildings owned, leased and license/permit, total acres owned by the Services and the total acres used, the PRV (in \$ millions) and the authorized number of military, civilian, and other personnel (when available). The Plant Replacement Value (PRV) represents the reported cost of replacing the facility and its supporting infrastructure using today's construction cost (labor and material for that particular area) and standards (methodologies and codes). Other personnel include any non-appropriated employees, government contractors (if identified) or foreign nationals (if identified) performing work at the site.

It is important to note the following parameters for the content of this report:

- **Timeliness.** While the physical base structure may change throughout the year (new construction, demolitions, etc.), the BSR is a

**Department of Defense  
Base Structure Report (BSR)  
FY 2006 Baseline**

“snapshot” of the DoD’s physical plant, as reported on September 30, 2005. The bases listed may be in various stages of activity, including unused or awaiting disposal. Due to the legalities involved in transferring deeded property, individual Service inventories may still include a legal property record long after the decision has been made to transfer that asset to another organization. Likewise, ongoing additions to the base structure, including in-transfers, are often not officially recorded until well after the actual decision and occupancy has been finalized.

- **Mode of View.** For the purpose of this report, each entry is defined as a site at a specific location with a name and real property assets (see definition of a “site” in the next section). As an exception, Air Force strategic missile sites were rolled up to the appropriate one of seven parent installations. In the case of F. E. Warren AFB, this means that those missile sites located in Nebraska and Colorado were counted as part of the parent installation total for the state of Wyoming and are not shown in the totals for Nebraska or Colorado. However, Navy/Marine Corps Special Areas are shown as separate sites if the special area is NOT in the same city/state as the main activity (e.g, Outlying Landing Fields).

- **Display Criteria.** This report includes specific information on sites meeting a predetermined size and value criteria (except for the Army National Guard State Installations in Section X). To qualify for entry in the published report, a site located in the United States must be larger than 10 acres **AND** have a PRV greater than \$10 million. If the site is located in a foreign country, it must be larger than 10 acres **OR** have a PRV greater than \$10 million to be shown as a separate entry. To preserve the comprehensiveness of the report, sites that do not meet these criteria are aggregated as an “Other” location within each state or country. For the Army National Guard State Installations, the criteria is slightly reduced to show approximately the same percentage of the total number of sites as shown in the rest of the report. State sites are shown if the site is larger than 5 acres **AND** has a PRV greater than \$5 million. State sites not meeting this criteria are aggregated as “Other” for each state.

- **Personnel Data.** Personnel data is included as a means of showing magnitude of size and should not be construed as validated Military Department Manpower Data. Personnel data was collected from multiple sources, to include inputs from the individual Services personnel databases. Since personnel totals reflected in this report attempt to show all personnel regardless of Service affiliation assigned to individual sites or locations, totals should not be confused and viewed as representing only individual Service total strength. It is also possible that totals in this report may not reflect the actual population at a particular site. Detailed personnel questions should be addressed to the appropriate Service manpower or personnel offices.

### **III. DATA SOURCES AND DEFINITIONS**

The inventory data included in this report is extracted directly from the native Services’ real property inventories; i.e., Army - HQ Army Integrated Facilities System (IFS), Navy and Marine Corps – Navy Facilities Assets Database (NFADB), and the Air Force’s Real Property Asset (RPA) database. Washington Headquarters Service provided their real property inventory. This report does not attempt to replicate all the details included the source databases. Instead, this report provides a summary view of the Department’s installations using common elements that should answer most questions. An explanation of criteria used for each column in the BSR is shown below:

**Department of Defense  
Base Structure Report (BSR)  
FY 2006 Baseline**

- **SITE:** Indicates the installation or site name as used in the Services' databases. This is based on the Services' Installation Number (Army and Air Force), Unit Identification Code/Special Area Code (Navy and Marine Corps), or Site Code (Washington Headquarters Service).
- **BRAC 2005:** Indicates BRAC 2005 action (C = Closure or R = Realignment) as per Appendix Q Text of 2005 Defense Base Closure and Realignment Commission Final and Approved Recommendations.
- **COMPONENT:** Designates the primary component for the owner/reporter of a site or installation, either Active, Guard, or Reserve. For the Navy, this column designates those sites in caretaker status pending some type of further action. This action may be a pending closure or realignment, or the site could remain in caretaker status. This does not reflect any BRAC 2005 activity.
- **NAME NEAREST CITY:** Identifies the name of the nearest city of reasonable size as reported by the Services.
- **BUILDINGS:** A roofed, floored, and walled enclosed structure (of one or more levels) that is constructed over a plot of land and is suitable for any of a wide variety of activities, such as living, office and/or manufacturing spaces.
- **STRUCTURES:** A facility classified as other than a building or utility which is constructed on or in the land (e.g., roads, bridges, shelters, ranges).
- **UTILITIES:** A distribution system that provides a common service or commodity to one or more buildings or structures (e.g., communications lines, electrical power distribution, sewage treatment).

**Important Note on Buildings Information:** Buildings are classified according to the DoD Real Property Classification System (RPCS) Facility Type in lieu of the Services' classification. Square footage amounts are normalized by applying RPCS size limits to each facility according to its RPCS classification. Building sizes exceeding the size limit are reset to the median size based on its facility classification, unless the reported data has been validated by the Service. State Owned building/square footage is applicable to Army National Guard State Installations only.

- **BUILDINGS OWNED COUNT:** Represents the number of buildings owned by the Service at the particular site or installation. It does not include licensed or permitted facilities, State-owned National Guard facilities, or facilities provided by other nations at foreign locations.
- **BUILDINGS OWNED SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as owned.
- **BUILDINGS STATE OWNED COUNT:** Represents the number of buildings that are owned by the State in which the particular site or installation is located.

**Department of Defense  
Base Structure Report (BSR)  
FY 2006 Baseline**

- **BUILDINGS STATE OWNED SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as State.
- **BUILDINGS LEASED COUNT:** Identifies the number of buildings leased and reported by the Services in their inventories.
- **BUILDINGS LEASED SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as leased in the Services' databases.
- **BUILDINGS LICENSE/PERMIT COUNT:** Identifies the number of buildings licensed or permitted and reported by the Services in their inventories.
- **BUILDINGS LICENSE/PERMIT SQFT:** Reflects the normalized RPCS building square footage for the buildings identified as licensed or permitted in the Services' databases.
- **TOTAL ACRES:** Identifies the total number of acres owned, used by, or leased to the DoD. It includes public land, state land, land owned by other federal agencies, and acreage of foreign soil used by DoD sites.
- **PRV (\$M):** Total Plant Replacement Value (PRV) for all facilities (buildings, structures, and utilities) included in the Services RPI databases. This reported value is the cost to replace the current physical plant (facilities and supporting infrastructure) using today's construction costs (labor and materials) and standards (methodologies and codes). The PRV represents the Service-calculated value adjusted for facilities that exceeded the RPCS size limit; for instance, the PRV is reduced by the proportional reduction of the facility size.

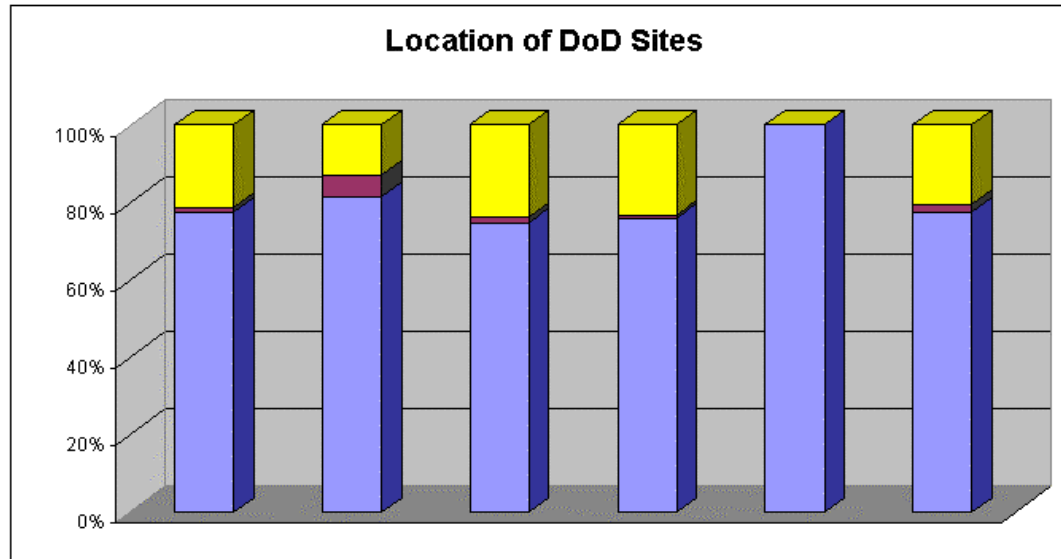

**Important Note on Personnel Data:** This information is provided only to project a level of magnitude when comparing sites. Each Service does not maintain their personnel data to relate directly to their Real Property Information. While every effort was made to match the personnel strengths to the appropriate site, the population may not reflect the actual population of the site. Detailed personnel questions should be addressed to the appropriate Service manpower or personnel offices.

- **MIL:** Identifies all known military personnel authorized for the site or installation. Includes Active Duty, Guard, and Reserve personnel, regardless of Service affiliation.
- **CIV:** Identifies all known DoD civilian personnel identified for the site or installation, regardless of Service affiliation. Note: civilian numbers for the Navy represent assigned personnel not authorized.
- **OTHER:** Identifies all known other civilian personnel identified for the site or installation, including personnel paid from Non-appropriated Funds (NAF), Foreign Nationals (direct hire) at foreign locations, and, if available, any full-time contractor personnel, regardless of Service affiliation.

**IV. PORTFOLIO SUMMARY**

The real property portfolio managed by the Department of Defense encompasses a worldwide footprint to include all 50 States, seven U.S. territories, and 40 foreign countries of which the majority of the foreign sites are located in Germany (293 sites), Japan (111 sites) and South Korea (105 sites). Locations of DoD sites by Service and Agency are depicted at Figure 1.

## Department of Defense Base Structure Report (BSR) FY 2006 Baseline

The Department's real property inventory by Service and WHS is depicted in Figure 2. Buildings represent the majority of the Department's portfolio (60%), followed by structures (28%), Utilities (11%) and Land (1%). Land records represent over 29.7 million acres. As noted in Figure 2, the Army possesses the largest quantity of facilities with 43% of the Department's total inventory. DoD's facilities portfolio by PRV is also shown in Figure 2.

**Buildings Profile**

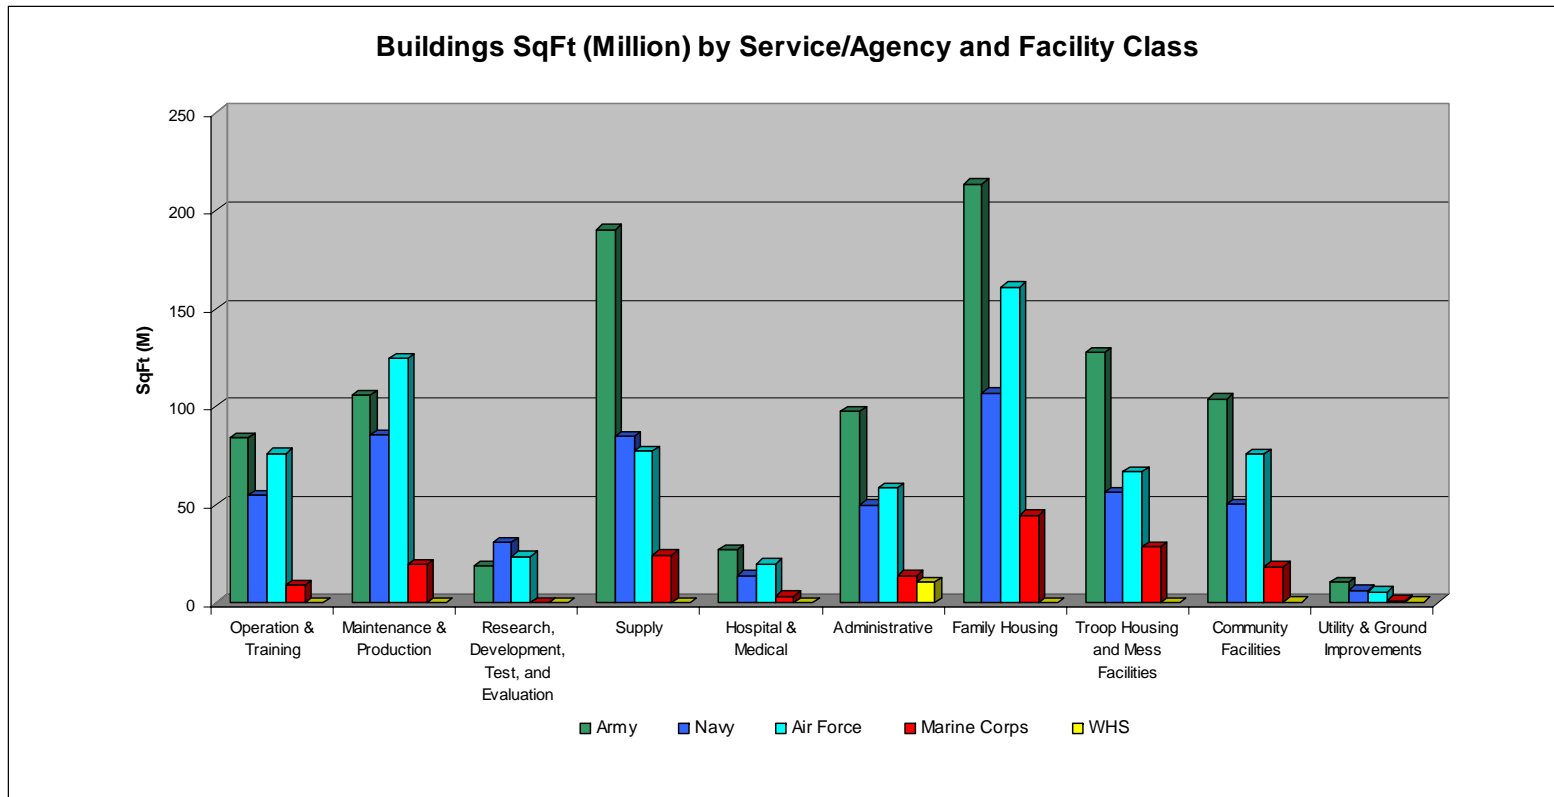

DoD occupies a reported 344,950 buildings throughout the world, valued at over \$423 billion and comprising almost 2.4 billion square feet. The Department's profile by legal interest are depicted at Table 2. Almost 80% of the buildings used by the Department are owned while less than 3% are leased. The Department uses 4% of its building via a license or permit from another agency and less than 13% by other legal interest means such as State owned, civil works, foreign and privately owned.

### Structures Profile

DoD uses a reported 160,754 structures throughout the world, valued at over \$149 billion. Table 4 depicts the Department's structures profile by legal interest. Over 90% of the Department's structures are owned while less than 1% are leased. The Department uses the remaining 9% of structures either by a license or permit from another federal agency or by other means such as State owned.

### Land Profile

DoD manages over 29.7 million acres of land worldwide. More than 98% of that land is located in the United States or U.S. Territories. The majority of land controlled by the Department (80%) is government owned or withdrawn public land. The Army controls the largest percentage of the Department's land – 52%. The Air Force manages the next largest portion of the total acreage at 33%. Figure 7 depicts the land profile.

**Facility Quality Profile**

Initial reporting of the Department’s quality of facilities began in CY 2005. To promote standardization and objectivity, facility Q-ratings are stated as the result of a mathematical formula comparing the estimated cost (typically by looking at outstanding work orders) to restore a facility to the total amount of its current plant replacement value. The resulting percentage is then reported in the table below (Table 8).

<b>Code</b>	<b>Definition</b>
Q-1	The sum of all necessary restoration and modernization costs is not greater than 10 percent of the replacement value of the facility.
Q-2	The sum of all necessary restoration and modernization costs is greater than 10 percent but not greater than 20 percent of the replacement value of the facility.
Q-3	The sum of all necessary restoration and modernization costs is greater than 20 percent but not greater than 40 percent of the replacement value of the facility.
Q-4	The sum of all necessary restoration and modernization costs is greater than 40 percent of the replacement value of the facility.

**Table 8. Q-Status Criteria**

The Department’s initial Q-status reporting reveals 76 percent of all facilities within the DoD are rated Q-1 with over 13 percent of all facilities (Q-3 and Q-4) needing significant funding to restore facilities to good working order to meet full facility value. Figure 8 depicts DoD’s Q-status by Service/Agency.

	Q1	Q2	Q3	Q4
DoD Wide	76.1%	10.8%	6.3%	6.8%
Army	60.4%	19.5%	14.8%	5.3%
Navy	88.8%	2.2%	2.7%	6.3%
Air Force	88.5%	1.9%	1.8%	7.9%
Marine Corps	40.3%	42.2%	9.7%	7.7%

## Department of Defense Base Structure Report (BSR) FY 2006 Baseline

### 2005 Base Realignment and Closure (BRAC)

The total implementation of the BRAC 2005 will result in the closure of 441 sites valued at \$16.8B and realignment at an additional 318 sites. Figure 9 shows by Service and Component, to include the Army State National Guard, the number of sites affected by BRAC 2005. The figures excludes sites that are not reported in the Services Real Property Inventory databases.

**V. SUMMARY OF CHANGES**

Section IV – Portfolio Summary:

- Summarized DoD Portfolio by legal interest, Area, Facility Class, and by Service/WHS.
- Added summary data for Facility Quality Profile and BRAC 2005 actions.

Section VIII thru Section X

- Added: BRAC 2005 Action and Buildings License/Permit.
- Removed: Phone Number, Zip Code, and Total Personnel

**VI. CONCLUSION**

The Base Structure Report is designed to provide the reader with a snapshot view of the vast real property inventory maintained by today's Department of Defense. Our physical infrastructure provides the critical framework supporting the global war on terrorism and supports our military forces worldwide. As the Department transforms many of its business processes and realigns many of our installations in response to BRAC 2005, the location and quality of our facilities will become increasingly more important to our nation's readiness. The Office of the Deputy Under Secretary of Defense for Installations and Environment is projecting a clear path forward with a soon to be released strategic plan. Our Defense Installations Strategic Plan challenges the Department to develop and field the "Right Tools and Metrics" for understanding and managing this vast Department of Defense physical infrastructure. The Department's vision for transformation will soon be reflected in this report as installations are closed, restructured and realigned to more efficiently support the joint warfighter. Our network of quality support facilities and installations continues to provide the strength and stability of the staff that supports the lethal tip of the spear.
