NOTICE: When government or other drawings, specifications or other data are used for any purpose other than in connection with a definitely related government procurement operation, the U. S. Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use or sell any patented invention that may in any way be related thereto.
BIBLIOGRAPHY ON VACCINIA, VARIOLA, AND ANIMAL POX
SUPPLEMENT, 1956 - 1960

September 1961

Technical Library Branch
Technical Information Division
DIRECTOR OF TECHNICAL SERVICES
INTRODUCTION

This bibliography is a supplement to the Bibliography on Vaccinia, Variola, and Animal Pox published in March 1956. A few earlier references have been included. The main sources of references were: Abstracts of Soviet Medicine, Part B; Abstracts of World Medicine; Biological Abstracts; Bulletin of Hygiene; Chemical Abstracts; Current Contents; Current List of Medical Literature; Excerpta Medica Sections IV and VI; Index Medicus; Index Veterinarius; Quarterly Cumulative Index Medicus 1956; and Veterinary Bulletin.

References marked with an asterisk (*) are available for on-post loan from the Fort Detrick Technical Library. This bibliography is kept up to date by adding current references as they are published. The complete bibliography is available in the Technical Library.
