DISCLAIMER NOTICE

THIS DOCUMENT IS BEST QUALITY AVAILABLE. THE COPY FURNISHED TO DTIC CONTAINED A SIGNIFICANT NUMBER OF PAGES WHICH DO NOT REPRODUCE LEGIBLY.
NOTICE: When government or other drawings, specifications or other data are used for any purpose other than in connection with a definitely related government procurement operation, the U. S. Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use or sell any patented invention that may in any way be related thereto.
BIBLIOGRAPHY ON BIOLOGICAL WARFARE

July 1953

Supplement, June 1957

TECHNICAL LIBRARY
CAMP DETRICK, FREDERICK, MARYLAND
ASTIA AVAILABILITY NOTICE

Qualified requestors may obtain copies of this document from ASTIA.

This publication has been cleared for release to the general public. Non-DOD agencies may purchase this publication from the Office of Technical Services, U. S. Department of Commerce, Washington 25, D. C.
This bibliography covers books and journal literature published up to about June, 1953. New and additional references added will be kept on file in the Camp Detrick Technical Library, and will be available upon request. References marked with an asterisk (*) are now available in the library; reprints of those not marked are added as they become obtainable.
