

# Ogden Air Logistics Center

**U.S. AIR FORCE**

## Munitions Executive Summit

**Maj Gen Kathleen D. Close**  
**Commander, Ogden Air Logistics Center**  
**Hill AFB, Utah**  
**20 Feb 08**

# Overview

*OGDEN AIR LOGISTICS CENTER*

- **Air Force Priorities**
- **Air Force Armament Enterprise**
- **Today's Fight**
- **Tomorrow's Challenge**

# Air Force Priorities

OGDEN AIR LOGISTICS CENTER

- **Winning the war on terror ... *while preparing for the next war***
- **Developing and caring for Airmen and their families ... *to maintain our competitive advantage***
- **Recapitalizing and modernizing our aircraft, satellites and equipment ...*to optimize the military utility of our systems and to better meet 21<sup>st</sup> Century challenges***

# Air Force Armament Enterprise

OGDEN AIR LOGISTICS CENTER

## Hill AFB UT

Air-to Ground Weapons  
Air Intercept Missiles  
GP Bombs

CAD/PAD JPO

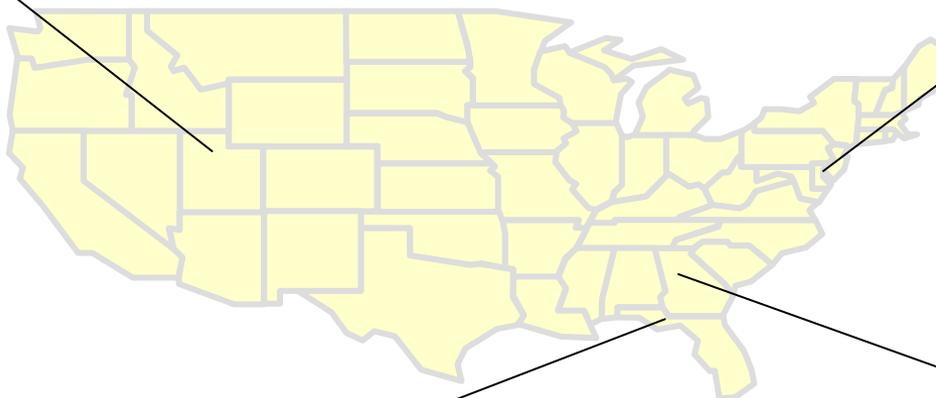

Countermeasures

APF

Small-Med Cal AMMO

## Pentagon

SAF AQ  
USAF HQ A3,A4,A5,

## Robins AFB GA

Air Superiority Munitions

Handling Equipment

Guns and Racks

## Eglin AFB FL

JASSM, JASSM-ER

WCMD

JDAM

Fuzes

SDB I and II

SFW

Expenditures of  
~\$689M Annually

Over 9,400 NSNs with Inventory Value > \$22B

# Current Focus Areas

*OGDEN AIR LOGISTICS CENTER*

■ **Current fight today requires fast-moving precision target engagement with low collateral damage**

■ **BLU-126 – A guided MK-82 with reduced explosive fill for smaller effects radius**

■ **Laser AGM-65E (Maverick) and Laser JDAM**

■ **Small Diameter Bomb (SDB)**

■ **To get to today's fight....forced to adapt legacy weapons to fit a new warfighting strategy**

■ **This is a success story....not easy....a lot of brute force**

**Collaborative Opportunities with Services & Industry**

# Responsiveness

OGDEN AIR LOGISTICS CENTER

## ■ Urgent operational needs require Partnering and Sharing between services and integration with industry

- 20 MM – Working with Navy on combining requirements within family groups for economical procurements
- PGU-28A/B – Cross-leveling with Navy for AF urgent need for combat rounds
- PGU-30A/B – AF loaned Navy ~40K rounds for urgent need
- BLU-126 – Navy loaned AF assets for trial theater use
- AGM-65E – Navy loaned AF laser version – Industry working production restart

# Joint/Collaborative Initiatives to Satisfy Warfighter Demands

OGDEN AIR LOGISTICS CENTER

- Example of working together to improve transparency of requirements and technical issues
  - Joint Program Office for Cartridge Activated Devices/Propellant Actuated Devices (CAD/PAD)
- So what about tomorrow.....can the services work jointly to a common weapon approach?
- What's Next?

# Future Outlook For Tomorrow's Challenges

*OGDEN AIR LOGISTICS CENTER*

## ■ F-22

- Gun
- Bomb Release (internal versus external)

## ■ F-35

- Heading in the same direction

## ■ UAV – Reaper

- Legacy weapon system - Hellfire

# What We are Doing to Help the Industrial Base

*OGDEN AIR LOGISTICS CENTER*

- **Addressing a Joint Requirements Process that will “smooth” or “flatten” the peaks and valleys of production requirements**
- **Addressing use of multiple-year contracting**

# How Can Industry Help?

*OGDEN AIR LOGISTICS CENTER*

- **With fighting today's war**
  - **Be Flexible**
  - **Be Responsive**
  - **Help us develop Quality Munitions**
  
- **With Posturing for tomorrow's challenges**
  - **Integrated armament application**
  - **Transparency**

*OGDEN AIR LOGISTICS CENTER*

**Questions?**
