

Maintenance as an Integral Part of the E2E Supply Chain

James Harry

Director – Supply Chain & Operations

The E2E Supply Chain is More Than Supply

E2E Supply Chain

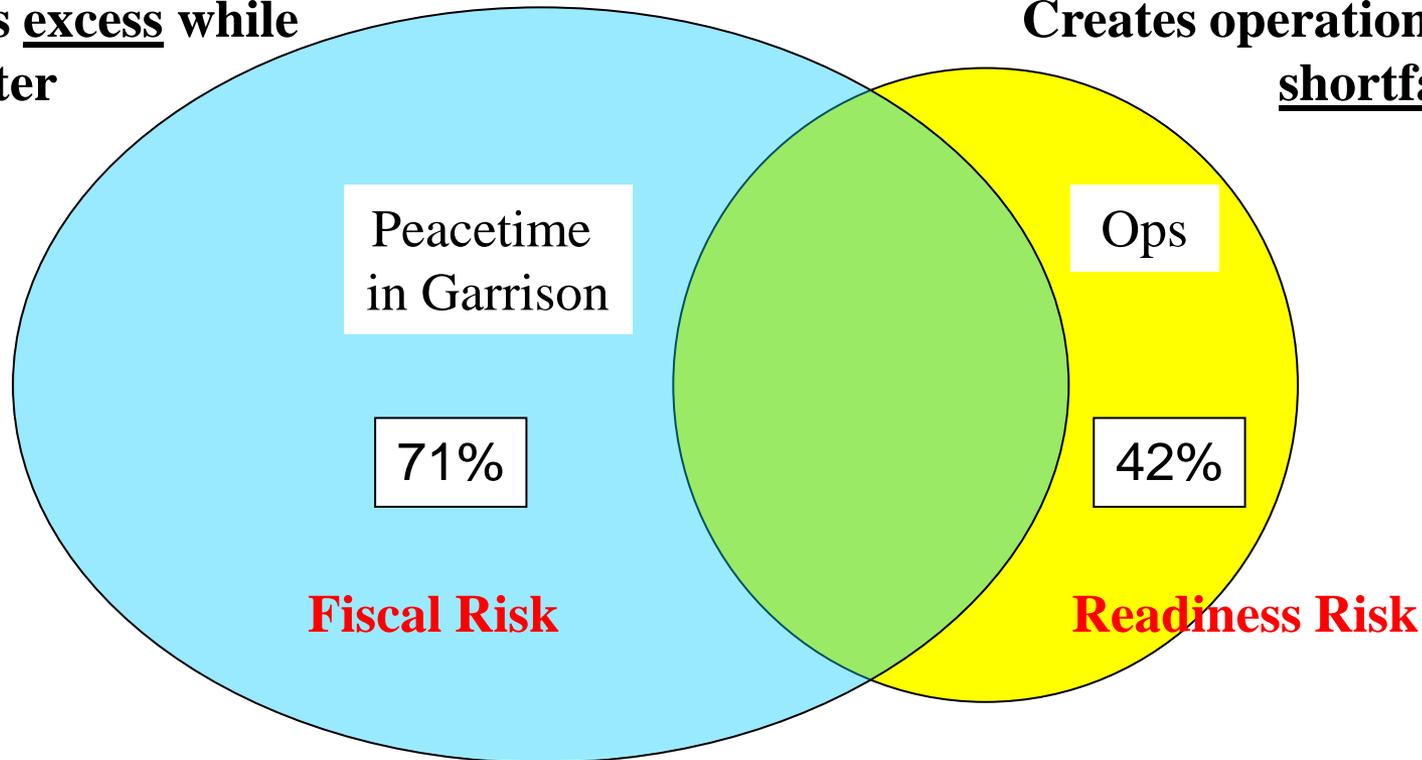

Maintenance Demand Signal (MDS): A necessary “link”

Effects of Maintenance & Supply Disconnects

**Creates excess while
in theater**

**Creates operational
shortfall**

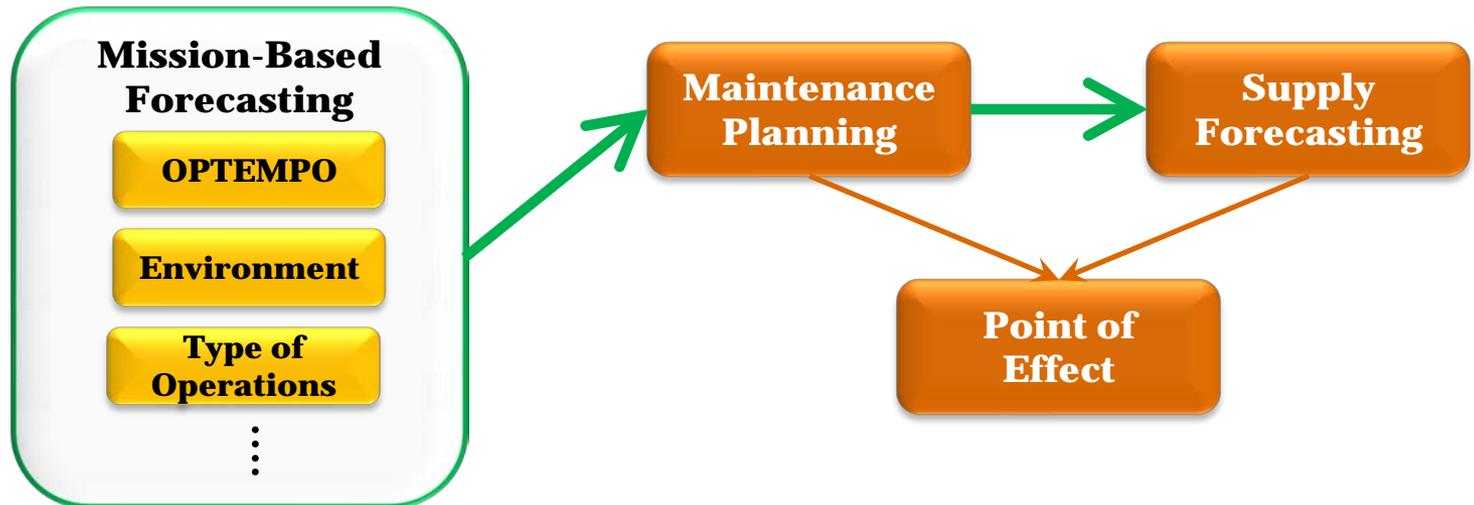

-  Actual NSNs consumed in CONUS (2001-02)
-  Actual NSNs consumed in Iraq (2003: Mar-Sep)
-  NSNs in common

Mission-Based Forecasting

Today:

Future:

Mission-Based Forecasting can enable the transition from *forecasting* supply to *planning* maintenance

Thank you
