Key Points

- **Bradley A3**
- **United Defense as developer/producer**
- **Enabling technologies for future systems**

Bradley Family of Vehicles

BFV A3 six areas of improvement

Core Electronic Architecture

- 1553 Database
- Central Processors & Memory
- Digital Info Displays for CDR
- DVR & SQ LDR
- Compliant with Army Architecture

Command and Control

- C2 Software Compliant w/FBCB2
- Navigation Software
- Digital Communications
- CDR Independent Viewer
- SQ LDR Display

Survivability

- Combat ID System
- Roof Frag Protection
- Squad Ventilated Facepiece

Mobility

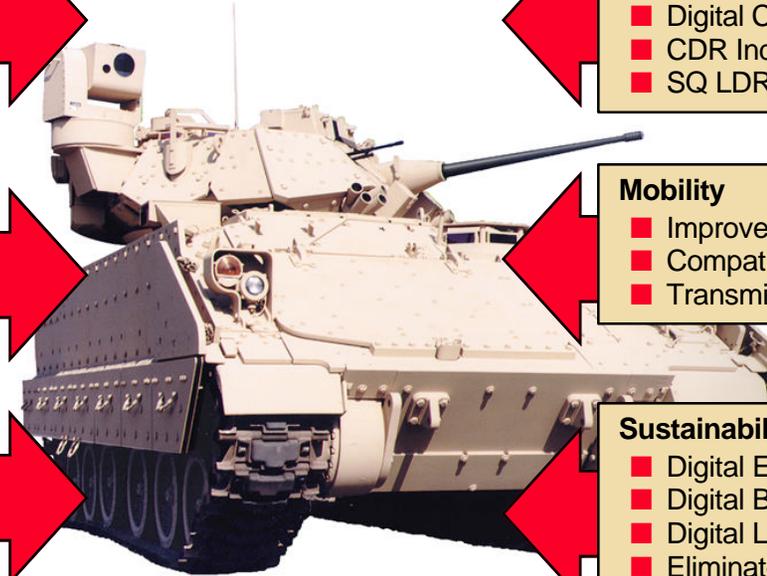

- Improved Driver's Vision
- Compatible with M1A2 (SEP)
- Transmission Improvements

Lethality

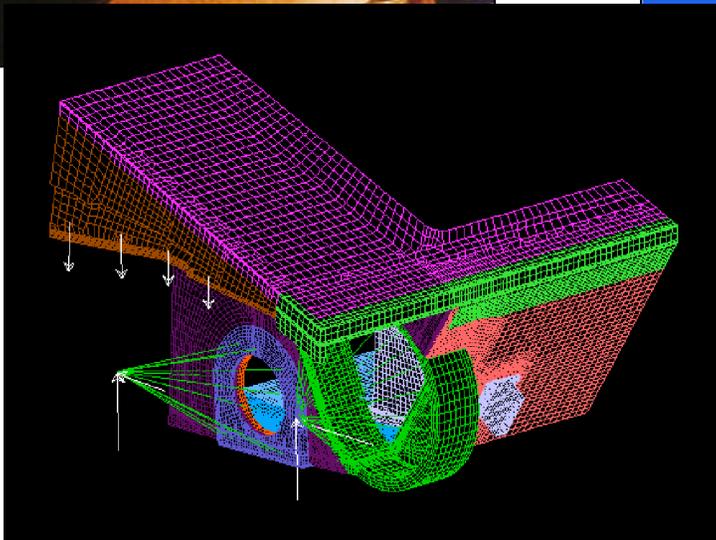

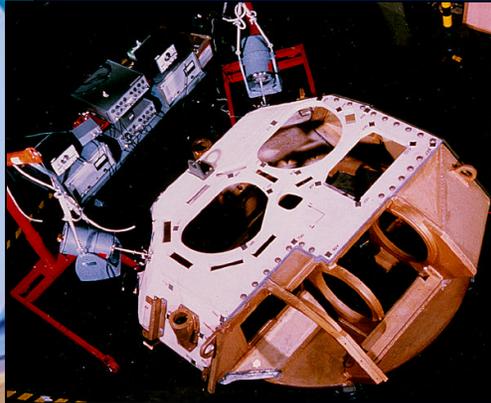

- Improved Target Acquisition
- Ballistic Fire Control Solution
- Auto Dual Target Tracking
- Auto Boresight
- Hunter/Killer

Sustainability

- Digital Electronics
- Digital BIT
- Digital Logistics Reporting
- Eliminates STE M1/FVS
- Uses Common On-Vehicle Test Capability (SPORT & VADS)

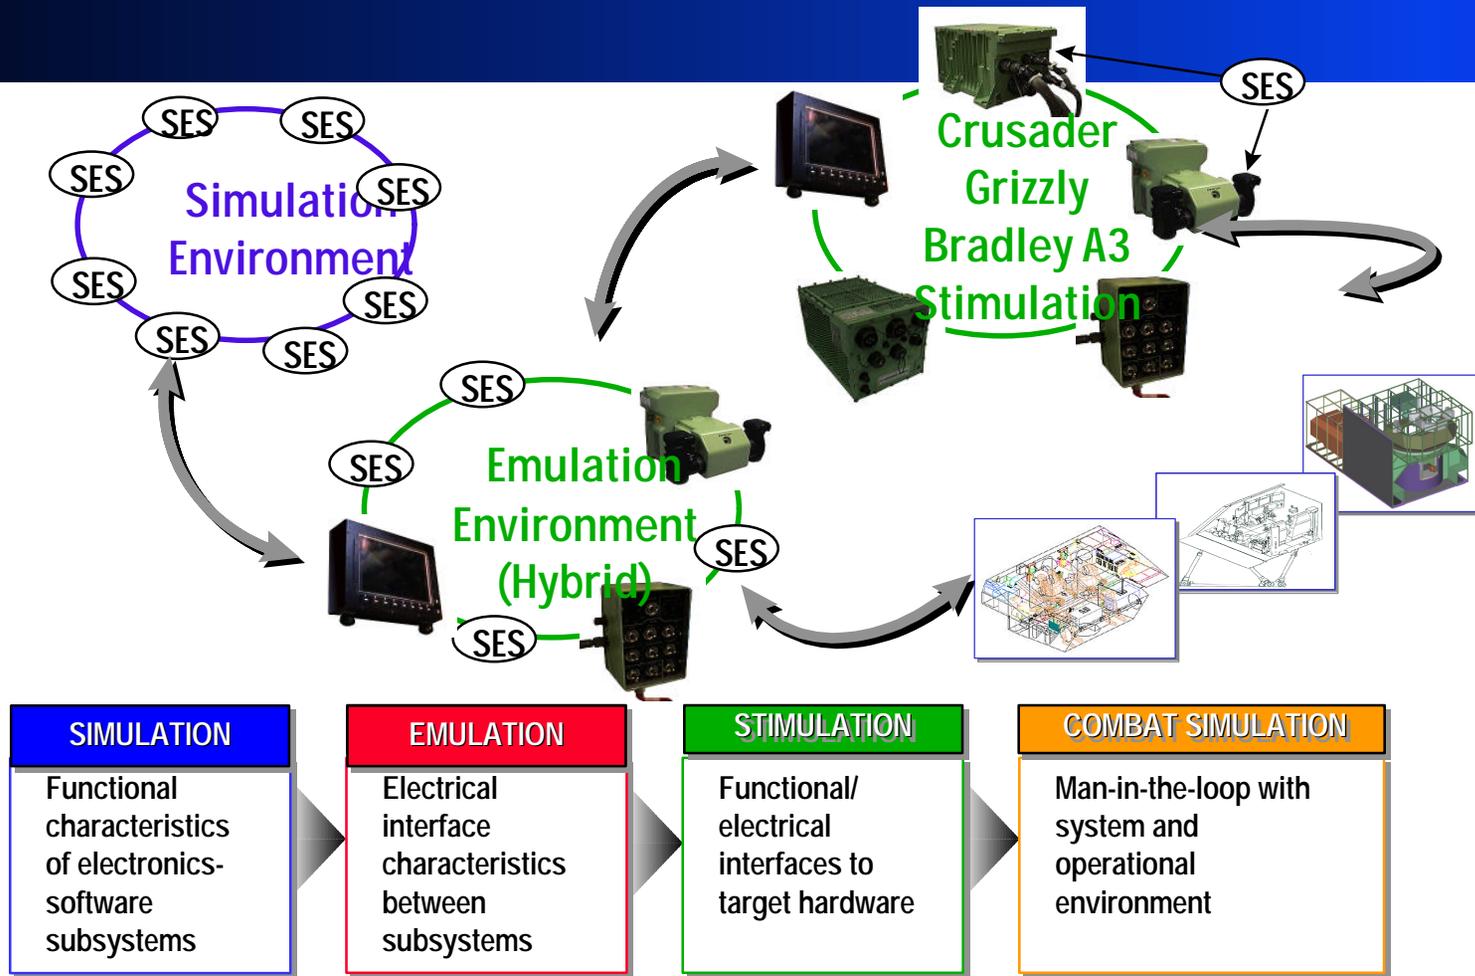

**Providing
what the customer wants,
when the customer wants it**

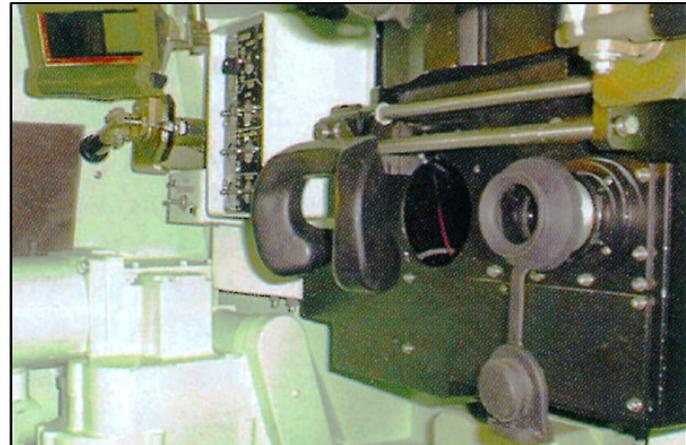

Simulation, Emulation, Stimulation

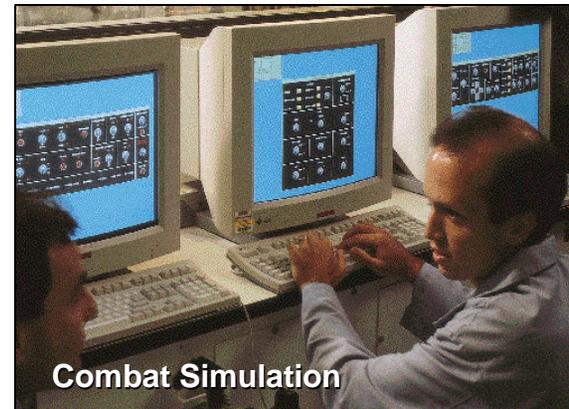

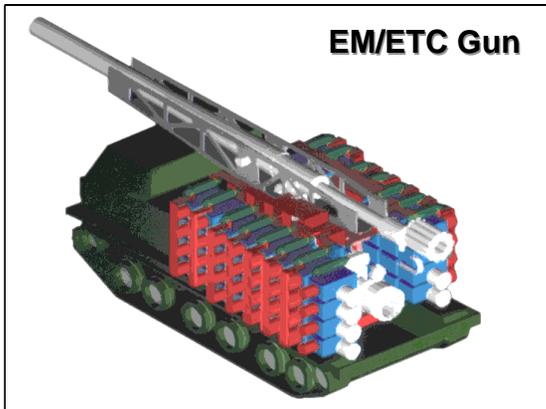

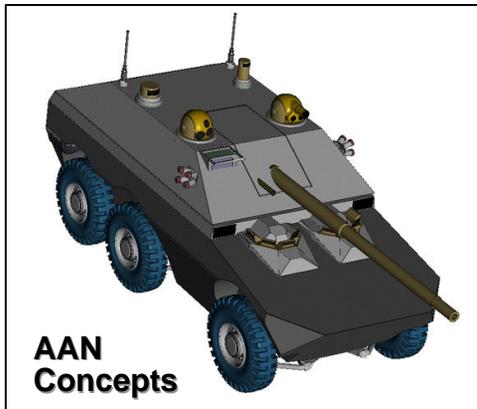

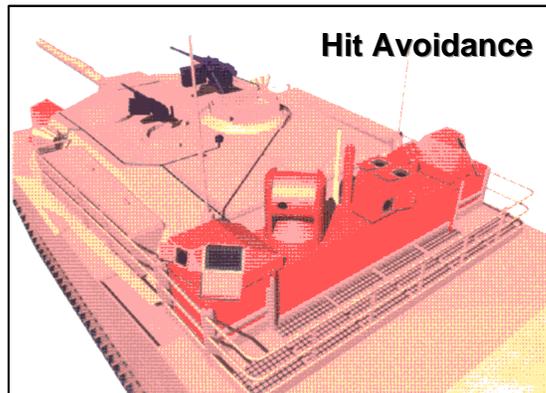

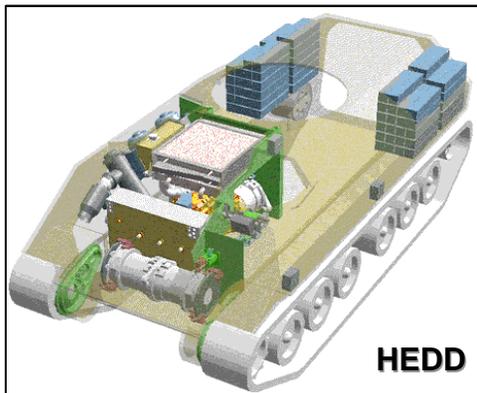

MODEL - SIMULATE - TEST - FIX - MODEL

Bradley Advanced Training System

Advanced Technologies

Quotes

“... it is the most magnificent fighting machine that we have ever fielded in anybody’s army, period”

**MG Barry R. McCaffrey
Commanding General
24th Infantry Division**

“There are no other weapon systems in our history that have performed better in war and combat than the Bradley”

**Dick Cheney
Secretary of Defense**
