PROCEDURES

1. SURVEYS REQUESTED BY THE DoD OR OSD COMPONENTS. A survey, as defined in Reference (b), requires mandatory USD(P&R) coordination, through the Director, DMDC, in accordance with the procedures specified in this enclosure.

   a. A survey requesting participation of personnel from more than one DoD or OSD Component or a DoD or OSD Component-sponsored survey of members of the public will be reviewed by USD(P&R), through the Director, DMDC, to ensure that:

      (1) The survey minimizes exposure of DoD personnel, Service members families, and members of the public to unwarranted information collection (e.g., survey solicitations).

      (2) The survey is the best means to produce the most valid information with the least burden to individual personnel or participating DoD or OSD Components.

      (3) Adequate safeguards are in place to ensure the consent of the individual before any personal information (written or oral) is solicited or collected, in accordance with DoDD 5400.11 (Reference (i)).

      (1) The available information, including results of past surveys of the same or similar individuals, is not adequate to fill the need in accordance with Reference (b).

      (2) Current approved and licensed surveys cannot provide the required information, in accordance with Reference (b).

survey supporting statement or OMB supporting statement, and the DD Form 2936, “Request for Approval of DoD Internal Information Collections” (if applicable).

e. Upon receipt of all required documentation, DMDC will conduct its initial review of the survey within 15 working days and assist the requesting DoD or OSD Component, as necessary.

   (1) Additional reviews may be necessary depending on the complexity of the survey’s subject, methodology, or statistical design.

   (2) If DMDC determines the data collection does not meet the definition of a survey in this instruction, DMDC will indicate their exempt determination either on the DD Form 2936 or by memorandum, as required in Reference (b). However, DMDC may review the documentation and provide feedback on the exempted survey if requested by the DoD or OSD Component.

   (3) A DMDC exempt determination does not exempt the requesting DoD or OSD Component from obtaining a valid report control symbol (RCS) or OMB control number as required in Reference (b).

   f. Upon review of the survey, a DMDC representative will forward a memorandum recommending approval of the survey, the DMDC or OMB supporting statement, the collection instrument, any supporting materials, and the signed DD Form 2936, if applicable, to the requesting DoD or OSD Component.       (1) Informal or formal exchanges by phone, e-mail, or memorandum that involve ISSCC members, the DoD or OSD Component’s IMCO, or other DoD or OSD Component senior leadership.

      (2) A DMDC memorandum to the USD(P&R) requesting a final decision on the recommendation to disapprove. Without USD(P&R) recommended approval, the survey will not be approved by the Director, WHS, for an RCS license or submitted to OMB for an OMB control number.

   h. All surveys covered by this instruction must display at least one clearance number, such as an RCS license or OMB control number.
