

CHAPTER 9

DEFENSE PROGRAM FOR REDISTRIBUTION OF ASSETS
SYSTEM TIME STANDARDS

A. POLICY

S/A participants in the **DEPRA** system will adhere to the time standard objectives prescribed herein to provide a reasonable responsiveness to the requirements of the system.

B. GENERAL

1. The processing time standards **prescribed** in this chapter provides the guidance and goals for S/A requisitioning and reporting of excess materiel and for shipping activities to respond to **DEPRA** system requirements.

2. These time standards will also be used by reviewers and evaluators of the **DEPRA** system for development of **management** indicators, as necessary, to judge system performance and highlight problem areas for increased attention.

3. These standards are based on processing times outlined in DoDD 4410.6 reference (e)) for priority 09-15 requisitions with consideration made for * the unique characteristics of the **DEPRA** system, the European Theater, and the Pacific Theater. Normal timeframes permitted under **UMMIPS** for completed shipments from CONUS to the **EUCOMs** and **PACOMs** are 71 and 82 days, respectively. Since **intra-theater** shipments normally require less transportation time than shipments from the CONUS, the total time allowed for completing **DEPRA directed** RDOS has been adjusted to recognize this factor.

C. TIME STANDARD OBJECTIVES

<u>CYCLE SEGMENT</u>	<u>DAYS</u>
1. Requisition Submission - from requisition activity to DEPRA .	2
2. Passing Action - from DEPRA (RDO) to reporting activity.	2
3.. Materiel Availability Response to RDO - reporting activity confirms/denies assets are available (BA or CB status/DI AE_) from date of RDO.	3 (working days)
4. Shipment Status Response - from date reporting activity provided BA status/DI AE_ to date shipment was made (DI AS_) or CB cancellation status/DI AE_ was provided.	8 (working days)

CH 1

DoD 4000.25-1-S2

5. Transportation Time - elapsed time **from** date materiel was shipped to receipt date by requisitioning activity.
