

DEPARTMENT OF DEFENSE MANUALS

DoD Management of Bulk Petroleum Products, Natural Gas, and Coal

Acquisition and Technology

FOREWORD

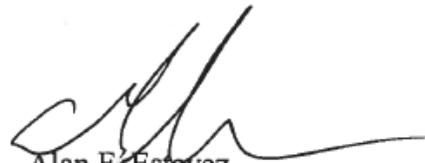

This manual is issued in accordance with DoD Directive 4140.25, "DOD Management Policy for Energy Commodities and Related Services," and DoD 4140.1-R, "DoD Materiel Management Regulation." It provides policy guidance, supply procedures, and assigns functional responsibilities for the DoD Integrated Materiel Management of bulk petroleum products. It also implements the Military Standard Petroleum System and Defense Fuel Automated Management System to document inventory data and supply transactions, and other relevant data in a central data bank (via electronic-network) for inventory and accountability of bulk petroleum stocks.

In addition to single agency procurement of bulk petroleum products, this manual provides policy guidance and management procedures for central procurement of natural gas (Volume III) and coal (Volume IV) as direct supply by the Defense Logistics Agency Energy.

This manual applies to OSD, the Military Departments, the Office of the Chairman of Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (hereinafter referred to collectively as the "DoD Components"). In accordance with Reference (eee), the United States Coast Guard shall be considered to be a DoD Component for those support purposes.

The Defense Logistics Agency prepared this manual in coordination with the DoD Components. It is approved for public release and is available on the Internet from the DoD Issuances Website at <http://www.dtic.mil/whs/directives>. Heads of DoD Components may issue supplementary guidance for unique management requirements.

See administrative instructions, Volume I for submitting recommended changes to this manual.

Alan F. Estevez  
Assistant Secretary of Defense for  
Logistics and Materiel Readiness

INDEX OF REFERENCES

References are listed in numeric sequence. Type of publication is abbreviated as follows:  
D = Directive, H = Handbook, I = Instruction, M= Manual, and R = Regulation.
