- c. AMC-R 10-2, AMC Organization and Functions.

1. GENERAL

a. The Army Mobilization and Operations Planning System (Ref. a) designates the Commander, **AMC** as the DA coordinating authority for the provision of supply support to Army Forces committed to a military operation.

b. The **AMC** Logistics Policies and Procedures for Contingency Planning (Ref. b) provides policies, procedures, and responsibilities for planning and execution of **AMC** logistic support of unified and specified command Operations Plans (**OPLANs**).

c. The Secretary of the Army delegated authority to Commander, **AMC** for execution of DoD Single Manager for Conventional Ammunition (**SMCA**) responsibilities. The mission includes acquisition, distribution, transportation, storage, maintenance, demilitarization, and disposal of toxic chemical munitions (**TCM**).

d. The U.S. Army Armament, Munitions and Chemical Command (**AMCCOM**) is the principal field operating activity for **SMCA**.

2. RESPONSIBILITIES

a. **Executive Director for Chemical and Nuclear Matters.**

(1) Serves as the **AMC** element responsible for providing policy, guidance, direction, and oversight for materiel management of all chemical systems, to include munitions, defense materiel, smoke, and bulk agents.

(2) Serves as **AMC** point of contact for all chemical surety related matters. Exercises staff oversight for the surety of all chemical weapons and bulk agents in the custody of **AMC**.

(3) Serves as responsible proponent of **AMC'S** chemical contamination survivability programs, including promulgation of policy and regulation.

(4) Assures integration and coordination of all aspects of chemical programs **within AMC**. This includes research, development, testing, supply, maintenance, transportation, safety, surety, and medical activities within HQ **AMC**.

(5) Advises and assists AMC staff, Major Subordinate Commands, field activities and the **SMCA**, as appropriate, on chemical matters.

b. **Program Executive Office - Ammunition:**

(1) Establishes policy and provides guidance for accomplishment of **AMC's** TCM acquisition, supply, maintenance, and transportation responsibilities, to include inventory and accountability management, storage, transportation, demilitarization, disposal, depot maintenance.

(2) Serves as ammunition PAA, **program/resource** manager, to include TCM for the Army Ammunition **Budget**, Program Objective Memorandum; and for the AMC Ammunition Major Item Distribution Plan and execution thereof.

(3) Serves as central focal point for HQ **AMC** for all **SMCA** actions.

(4) Performs AMC staff management for fielded conventional munitions, including conventional chemical munitions, and for *toxic chemicals*.

(5) Serves as Office of Primary Responsibility (**OPR**) for all ammunition **taskings** by higher headquarters and for responses thereto,

(6) Exercises staff supervision and functional **direction** on TCM issues relative to National Maintenance Point(s), National Inventory Control **Point**, and U.S. Army Depot System Command.

(7) Ensures the air worthiness of TCM for possible deployment by strategic airlift.

c. **Deputy Chief of Staff for Readiness:**

(1) Serves as **principal HQ AMC** staff element for development, coordination, and preparation of AMC **Logistic Support** Plans (LOGPLANs) in **support** of contingency operations. **AMC** LOGPLANs address TCM operations, as appropriate.

(2) - Provides staff guidance with regard to propositioning **TCM** requisitions prior to OPLAN execution.

(3) Provides HQ AMC **interface** with the **USTRANSCOM**.

(4) Provides staff management and command coordination for the execution of AMC LOGPLANs.

(5) Disseminates, as appropriate, **notification** of National Command Authority approval for the deployment of TCM. AMCCOM will be an addressee on the **JCS** message.

d. **Deputy Chief of Staff for Personnel:**

(1) Reviews and evaluates AMC programs, procedures, and mission accomplishments **relating** to physical and in-transit security of chemical surety materiel.

(2) Serves as functional proponent within HQ **AMC** responsible for execution of chemical surety movements.

e. OPR for this Annex is HQ AMC, **AMCRE-PW**.
