This document provides standards for writing a DoDM using the template in effect before May 1, 2015 on the DoD Issuances Websites. Use of the template is mandatory. Don’t write over a previous version of the issuance.

Enter the manual #, volume # if applicable, and the acronym of your Component. Directives Division (DD) enters the date below the number after the issuance is signed.

NUMBER 1234.56

SUBJECT: For a DoDM with no volumes:
Standards for DoD Manuals (DoDMs)
– OR – for a DoDM with volumes:
Standards for DoD Manuals (DoDMs): Format and Content
Format the DoDM according to Enclosure 1. For guidance on composition, go to the Writing Style Guide on the DoD Issuances Websites, Issuance Process Pages, at http://www.dtic.mil/whs/directives (unclassified) and https://www.dtic.smil.mil/whs/directives (classified). Go to these same sites for all other "go to" guidance in these standards.

References: See Enclosure 1 In these standards, Enclosure 1 discusses DoDM format. Format references in Enclosure 1 of your DoDM according to Enclosure 2 of these standards.

1. PURPOSE. Required section that is always located above the signature. (See Enclosures 3 and 4 for sample purpose statements.)

   a. DoDMs provide detailed procedures for implementing policy established in DoD directives (DoDDs) and DoD instructions (DoDIs).

   b. Organize and draft the text above the signature according to sections 1 through 9 above the signature of these standards. Organize the enclosure(s) according to Enclosure 1. The complete DoDM, including enclosures, will not exceed 100 pages. If more than 100 pages are required, separate the DoDM into volumes. Each volume of a multi-volume DoDM will contain the required sections above the signature and will be structured according to these standards. (Each volume will stand alone.)

   c. In the purpose section, state concisely why the DoDM is being published. Include a reference to the chartering DoDD that provides your Component head the authority to develop and

   First Page Footer - Section-1
Page numbering is preset in the footer throughout the template beginning on page 2.

DoDM Standards as of 2/24/2016
sign the instruction, and to the DoDD or DoDI that establishes the policy the DoDM implements. Identify any issuances this one reissues or cancels.

d. For multi-volume DoDMs, the purpose section consists of:

(1) A basic statement pertaining to the DoDM’s purpose in its entirety, including identifying the DoDD or policy DoDI that the DoDM is implementing.

(2) A volume-specific statement summarizing the content of the subject volume and identifying any issuances the subject volume reissues or cancels. If a multi-volume DoDM is reissuing a single DoDM or DoD publication, only Volume 1 of the new DoDM will contain the statement “(hereby cancelled)” in the References section. Subsequent volumes will state “(cancelled by Volume 1 of this manual).”

2. APPLICABILITY. Required section that is always located above the signature. Use the standard statement provided in the template. If the DoDM applies to organizations not listed there, or applies only under certain conditions, separate the section into paragraphs, as shown in Enclosure 5. For multi-volume DoDMs, identify any volume-specific qualifications to the standard applicability in a separate paragraph.

3. POLICY. Optional section. DoDMs can’t establish policy; this section is only used to briefly describe policy being implemented and will cite the DoDD(s) or DoDI(s) that established the policy. If used, it is always located above the signature and will be no more than one or two paragraphs long. This is the only place in the DoDM where policy will be stated. For multi-volume DoDMs, the policy section may also contain a volume-specific statement. (See Enclosure 6 for samples.)

4. RESPONSIBILITIES. Required section. For multi-volume DoDMs, the responsibilities may all be assigned in the first volume, or they may be volume-specific. If responsibilities exceed half a page, place them in an enclosure. (See Enclosure 7 for sample responsibility statements.)

a. Identify the key OSD and DoD Component heads who’ll implement the policy and list the overarching duties and obligations of each. Always assign responsibilities to officials, not to their offices or organizations. Responsibilities aren’t assigned below the DUSD/DASD or Defense Agency/DoD Field Activity Director level. DoDMs shouldn’t assign responsibilities that will unnecessarily hamper the OSD and DoD Component heads in their efforts to efficiently manage their Component.

b. In assigning responsibilities, be specific but succinct. Don’t include procedures. State what the official is responsible for doing, not how the official should do it. By clearly aligning the responsibility with the official, the intent of the DoDM can be better accomplished.

c. List the Component heads being assigned responsibilities in this order:
(1) The originating OSD Component head.

(2) Other key officials within the originating OSD Component according to their levels.

(3) Other key officials within the DoD in this order:

   (a) The OSD Component heads, individually. If responsibilities are also assigned to the OSD Components collectively in your issuance, use this language for individual responsibilities: “In addition to the responsibilities in [section/paragraph] [reference the section or paragraph assigning collective responsibilities], the [individual title]...” Go to “DoD and OSD Component Heads” for help in determining the individual OSD Component heads.

   1. Under each, list any Assistant Secretaries, Deputy Under Secretaries, Deputy Assistant Secretaries, or Defense Agency or DoD Field Activity Directors assigned responsibilities who are under the authority, direction, and control of the individual OSD Component head.

   2. When assigning responsibilities to officials at any level subordinate to the OSD Component heads, use this language to name the position having authority over them: “Under the authority, direction, and control of the [OSD Component head], the [subordinate agency head]...”

   (b) Individual Defense Agency or DoD Field Activity directors whose OSD Component authority is not assigned any responsibilities.

   (c) The directors of the Defense Agencies and DoD Field Activities, collectively.

   (d) The DoD Component heads, collectively. If responsibilities are also assigned to the DoD Component heads individually in your issuance, the “individual” paragraph(s) must include the language described in paragraph 4c(3)(a) of this section. Go to “DoD and OSD Component Heads” for assistance in determining the individual DoD Component heads.

   (e) The OSD Component heads, collectively.

   (f) The Secretaries of the Military Departments, collectively.

   (g) Individual Secretaries of the Military Departments. If responsibilities are also assigned to the Service Secretaries collectively in your issuance, this paragraph must include the language described in paragraph 4c(3)(a) of this section.

   (h) The Chairman of the Joint Chiefs of Staff.

   (i) The Combatant Commanders, collectively. When tasking Combatant Commanders to take action outside of the Joint Staff or their Combatant Commands, use this language as applicable: “…through the Chairman of the Joint Chiefs of Staff, will ....” This language can only be used in the opening statement if all responsibilities being assigned are taking place outside of the Joint Staff or Combatant Command.
(j) Individual Combatant Commanders. If responsibilities are also assigned to the Combatant Commanders collectively in your issuance, this paragraph must include the language described in paragraph 4c(3)(a) of this section.

5. PROCEDURES. Required section and the central element of the DoDM. A brief description of the procedures will always be introduced above the signature. Place the detailed procedures themselves in an enclosure or enclosures. Subdivide the enclosures into appendixes as appropriate. (See paragraph 4b of Enclosure 1 for guidance on structuring the procedure enclosure(s).)

6. INFORMATION COLLECTION REQUIREMENTS. Required if it applies to your manual. [Enter the formal information collection title], referred to in paragraph [enter the appropriate paragraph citation(s) where the information collection is described or referred to in the manual] of this manual, has been assigned report control symbol [enter report control symbol] in accordance with the procedures in Volume 1 of DoD Manual 8910.01 (Reference (#)). Replace “#” with the appropriate reference letter. The manual mustn’t be signed before the report control symbol is provided in the information collection requirements paragraph.

   a. The information collection requirements section identifies information collections described in the issuance and verifies that the collection has been approved and licensed. Use this section to identify forms, reports, record-keeping systems, or other requirements for collecting information from or furnishing information to other DoD and OSD Components and non-DoD federal agencies. Don’t use this section to establish policy, procedures, or responsibilities related to the collection of information.

   b. For general guidance or a list of program authority documents, see the DoD Internal Information Collections website at http://www.dtic.mil/whs/directives/corres/intinfocollections/iic_home.html.

7. RELEASABILITY. Required section that is always located above the signature. In the template, select and enter a releasability paragraph from the options shown in Figure 1. Delete the others. For guidance on determining releasability, go to DoDD 5230.9, DoDI 5230.29, and SecDef MESSAGE: INFORMATION SECURITY/WEBSITE ALERT. For guidance on obtaining Defense Office of Prepublication and Security Review clearance to release an unclassified issuance to the public, go to Processing DoD Issuances.

FORMATTING A DoDM

1. FORMAT BASICS
   a. Length. The complete DoDM mustn’t exceed 100 pages. If more than 100 pages are required, separate the DoDM into volumes. Format each volume according to these standards. If the AO feels a single document is required, a page waiver request must be submitted for WHS approval to the Directives Division. Go to Supporting Documents for a sample of the page waiver request memorandum.

   b. Font
      (1) Use the fonts preset in the template.
      (2) Use uppercase for section, enclosure, and appendix titles. Use title case for paragraph headings and for table and figure titles.
      (3) Underline all titles and headings.
      (4) Use bolding sparingly for emphasis, not underlining, italics, or color. Overuse of bolding will actually reduce the effectiveness of your emphasis, so only choose one or two words to emphasize.
      (5) Use italics when using foreign (e.g., Latin) terms.

   c. Margins, Spacing, and Alignment
      (1) Use the margins preset in the template. Leave one blank line between paragraphs. Leave two blank lines between sections.
      (2) Center titles of enclosures, appendixes, tables, and figures.
      (3) Follow the paragraph formatting guidance in Figure 2, except for the subject line, list of references, and table of contents, for which block-style format is preset in the template.

   d. Headers, Footers, and (MS) Word Sections
      (1) Use the headers preset in the template. Enter the manual number in the second page header, right-aligned, after the manual acronym. If the DoDM is separated into volumes, include the volume number; e.g., “DoDM 1234.56-V1.” No entry is required in the footer of the material above the signature.
      (2) The template provides MS Word sections for a table of contents, the first three enclosures (references, responsibilities, and procedures), and a glossary. The footers are preset to include the identifier in uppercase, right-aligned. (See footers to enclosures in these standards for examples.) If you don’t need a preset enclosure, delete the applicable MS Word section and
adjust the subsequent footer(s) as necessary.

(3) If you insert additional MS Word sections for enclosures, carry the header forward and adjust the text in the footer to read: “ENCLOSURE [applicable #].” If you insert additional sections for appendixes, carry the header forward and adjust the text in the footer to read: “APPENDIX [applicable #] TO ENCLOSURE [applicable #].”

(4) When there’s only one enclosure or one appendix, don’t enter a number in the footer (“APPENDIX TO ENCLOSURE”).

e. Footnotes and Endnotes. Don’t use endnotes or the word “NOTE” in DoD issuances. Use footnotes only within the reference list to indicate where the reader may obtain publications not readily found on an official Government website using an Internet search engine. To enter footnotes, use the “Insert Footnote” function on the “References” tab.

f. References. For the reference list, use the spacing and alignment provided in the first enclosure of the template. Format reference citations in the list and in the text according to Enclosure 2.

2. PARAGRAPH NUMBERING AND INDENTATION

a. Use the DoD issuance section and paragraph numbering format illustrated in Figures 2 through 4, as applicable. Text not in these formats must be inserted as a figure or table in the issuance; the only exception is for providing mailing addresses within the text.

Figure 2. DoD Issuance Section and Paragraph Numbering Format

1. SECTION TITLE. When you have no paragraphs in a section or when you wish to place explanatory material before the subsequent paragraphs, place a period after the section title and begin the text on the same line.

2. SECTION TITLE. Leave two blank lines between sections. When no text follows a title or heading, don’t place a period at the end of the title/heading.

   a. Paragraph Heading. To have a paragraph “a,” you must have a paragraph “b” To have a paragraph “(1),” you must have a paragraph “(2).” If one paragraph has a heading, all paragraphs on the same level (e.g., “a”, “b”, “c”, “d”) must be consistent in their formatting; either all must have a heading, or none.

   (1) Use tab stop increments of .25 to indent the first line of paragraphs. Second and succeeding lines return to the left margin. Don’t use the AutoFormat function in MS Word. (To turn this function off, see “MS Word Mysteries” on the DoD Issuances Website homepage.)

   (a) Paragraph Heading. Don’t tab between numbers and text. Use two spaces.

   (b) Paragraph Heading. Don’t use more than five tabs (no lower than the fifth level).

   1. Paragraph Heading

      a. This is the fifth level. Don’t create subparagraphs below this level.

      b. If you have material subordinate to this level, reorganize the material at a higher level.

2. Paragraph Heading
   
   (c) Paragraph Heading
   
   (2) Because paragraph 2a(1) has no heading, this paragraph has none.

b. Paragraph Heading. Because paragraph 1a has a heading, this paragraph must have one.

b. If enclosures have only one main section, it must be numbered as illustrated in Figure 3.

c. If an enclosure has only sections (there are no subparagraphs in the enclosure), it must be numbered as illustrated in Figure 4.

2. Section text…. Only separate sections without titles by one blank line.

3. TABLE OF CONTENTS
   a. Use of the table of contents MS Word section in the template is encouraged for all DoDMs. It is mandatory for DoDMs longer than 25 pages. Format the table of contents according to the template and Figure 5.

4. ENCLOSURES AND APPENDIXES
   a. Use the reference enclosure in the template. Use the responsibilities enclosure when responsibilities exceed half a page.

   b. The procedures enclosure is the central element of the DoDM and your primary means of accomplishing its purpose. Its organization will depend upon the DoDM’s content and complexity. Procedures may be structured in step-by-step sequence, by subject matter with related requirements, by situation and response, or on a combination of these and other factors. When the procedures are extensive and involve two or more distinct categories of content, you may want to separate them into two or more enclosures.

   c. You may also use an additional enclosure or enclosures to publish other information that adds to or supplements the text above the signature of the DoDM. Use an appendix or appendixes to publish information that adds to or supplements an enclosure.

   d. Don’t use an issuance itself or other reference as an enclosure or appendix.

   e. Refer to enclosures first in the text above the signature when possible (e.g., “Enclosure 3 provides sample purpose statements.”); refer to appendixes in the text of the enclosure they support (e.g., “See Appendix 1 for samples of reference citations frequently used in DoD issuances.”) Number enclosures and appendixes in the order they appear in the text. Capitalize the words “Enclosure” and “Appendix” only when referring to a specific enclosure or appendix.

by number. Use lowercase when referring to an enclosure or enclosures in general (e.g., “This enclosure . . . .” – and – “As listed in the enclosures . . . .”).

f. Center and underline the enclosure or appendix identifier and title at the top of the first page. Leave one blank line between identifier and title; leave two blank lines between title and
text. (See the enclosures and appendix to these standards for examples.)

g. List enclosures after the signature block. (See the signature page of these standards for guidelines.) List appendixes to an enclosure on the last page of the enclosure concerned, in the same format you listed enclosures below the signature block. (See the last page of Enclosure 2 for an example.)

5. **TABLES, FIGURES, AND FORMS**

a. Use a table to present information that is best communicated in tabular rather than paragraph form (i.e., arranged systematically by columns or rows), such as that in tables in these standards. Use figures to present information that is best communicated as an illustration (image or drawing; due to file size restrictions, photos shouldn’t be used), or as example (textual depiction) with or without instructional material, such as that in the figures in these standards. If you wish to place text in an issuance in a format other than the standard (Figure 2) you must insert the text in a figure or table. The **only** exception is when providing a mailing address for information.

b. A table or figure may be used above the signature and in enclosures and appendixes. Identify it using the word “Table” or “Figure,” as appropriate, followed by the number assigned according to the order in which it appears in the text. Table and figuring number is not cross-sequential; you may have a “Table 1” and a “Figure 1” in the same issuance. If there is only one table or figure, don’t number it.

c. Place the table or figure on the same page or as close to the text it supports as possible. Don’t place the table or figure in the middle of a paragraph.

   (1) Font size - **not** style - may be adjusted to accommodate internal requirements, but may not be smaller than 9 point font.

   (2) Use bolding sparingly for emphasis; don’t use underlining, or italics.

   (3) Use underlining for titles and headings only.

   (4) If using color of any kind in a table or figure, the color must be light enough so the table or figure is legible when printed in black and white hard copy.

d. Center the table or figure on the page. Center the table or figure identifier and number, followed by the title, at the top of the table or figure. If the table or figure carries over to the next page, **repeat the identifier** at the top of the page, followed by a comma and the word “Continued.” (See the tables and figures in these standards for examples. See Table 1 of the Appendix to Enclosure 2 for an example of a table breaking across a page.) (To create multi-page tables, go to “MS Word Mysteries” on the DoD Issuances Website home page.)

e. In general, forms can’t be included in DoDMs, as subsequent updates of the form will make the issuance obsolete. Instead the DoDM should refer to the form (e.g., SecDef (SD) Form 818, “Comments Matrix for DoD Issuances”) and identify its location - for DoD forms, this
would be the DoD Forms Management Program website at http://www.dtic.mil/whs/directives/infomgt/forms/formsprogram.htm. Once the form has been identified, subsequent references within the DoDM need only include the number (e.g., “SD Form 818”).

6. GLOSSARY

a. A list of acronyms and abbreviations in the Glossary is mandatory for DoDMs, including their volumes, that are over two pages and use acronyms other than “DoD,” “OSD,” or “U.S.”

b. Always place the Glossary at the end of the DoDM, after all enclosures and appendixes. When referring to the Glossary in the text, always capitalize “Glossary.” Format the Glossary following the guidance in the Glossary at the ends of these standards and as provided in the template.
1. GENERAL RULES

a. Citations in the Reference List

   (1) With some exceptions, including legal references, citations in the reference list are organized by type of issuance or originator, exact title or subject in quotation marks, and month, day, year **not** followed by a period. (See the appendix to this enclosure for samples.)

   (2) List references in the order they appear in the text. Use lower case letters in parentheses to identify them.

   (3) If a reference citation runs into the second line, use the block style format preset in the template. The month and day of the publication date must be on the same line. When citing an issuance that has been changed or certified as current, use the original publication date, **not** the change or certification date, and indicate “as amended” after the date.

   (4) When a DoDM contains more than 26 references, use a double lettering system (i.e., (aa) through (az), followed by (ba) through (bz), and so on). Don’t use triple letters.

   (5) Don’t establish or use acronyms in the reference list; include them only if they are a part of the issuance title, in parentheses within the title within quotation marks (see Figure 6). Exception: joint Service publications may use the acronym title string (e.g., DLAI 4140.55/AR 735-11-2/SECNAVINST 4355.18A/AFJMAN 23-215) but the acronyms used -- in this example “DLAI,” “AR,” “SECNAVINST,” and “AFJMAN” -- must be included in the Glossary.

   (6) When cancelling an issuance with the DoDM, place the words “hereby cancelled” in parentheses at the end of the citation in the reference list (see Figure 6).

   (7) Use a footnote to tell readers precisely where to find reference documents that aren’t readily found on a Government website using an Internet search engine, but don’t hyperlink to the website.

   (8) Don’t cite unpublished material such as drafts and documents not available to readers. Don’t cite issuances in the process of being cancelled (except those being cancelled by the directive being drafted). Don’t include a reference document as an enclosure.

b. Citations in the Text. (See the appendix to this enclosure for samples.)

   (1) Don’t use the term “under,” which is reserved in DoD issuances for the authority derived from an officer or official. Use “pursuant to” or “in accordance with” (go to Writing Style Guide for applicability).

(b) On subsequent citation – “Reference (g)”

(4) When a citation in the reference list contains more than one volume, or for the United States Code (U.S.C.) and Code of Federal Regulations (CFR), more than one section or part, cite the specific volume, section, or part that pertains to the text, followed by the reference letter; e.g., “pursuant to Volume 2 of DoD Manual 4567.89 (Reference (c)).” Follow this same practice when you wish to cite a specific paragraph within a reference that is not broken into volumes, sections, or parts; e.g.:

(a) On initial citation – “in accordance with Enclosure 1, paragraph 1b of DoD Instruction 1234.56 (Reference (g))”

(b) On subsequent citation – “in accordance with Enclosure 1, paragraph 1b of Reference (g)”

(5) When citing multiple documents at once would make establishing the references in accordance with paragraph 1b(3) awkward, the references may be grouped together (e.g., “…in accordance with References (a) through (p)”). On subsequent first citations of the individual documents so designated (References (a) through (p) in this example), the reference will be established and assigned a letter in accordance with paragraphs 1a(2) and 1b(4) of this enclosure.

2. CITING MILITARY DEPARTMENT AND JOINT SERVICE PUBLICATIONS. (See appendix for examples.) Don’t cite Military Department or joint Service publications in DoD issuances except:

a. When including a military or associated term in the definitions section or Glossary (cite Joint Publication 1-02).

b. When a Military Department or joint Service publication is the sole document pertaining to establishing or implementing a crucial policy.

3. LEGAL CITATIONS

a. When to Cite

(1) When a DoD issuance has implemented an Executive order (E.O.), Public Law (PL), or section of the U.S.C., cite the DoD issuance, not the order, law, or code.

(2) When a PL has been codified in the U.S.C., cite the title and section of the U.S.C., not the PL.

(3) For a PL not included in the U.S.C., cite the PL and applicable section. Verify the proper statutory authority with the Office of the DoD General Counsel when drafting the issuance.
(4) Cite the CFR when referencing a document that has been published in the CFR. Cite the Federal Register (FR) for documents that have been published in the FR but not in the CFR.

b. How to Cite

(1) U.S.C. and CFR

(a) Don’t cite the subject of the title’s part, section, or chapter. If citing more than one part, section, or chapter of a title, simply cite the title in Enclosure 1 and specify part, section, or chapter within the text. In the text, always cite the specific part(s), section(s), or chapter(s) that pertain to the text, followed by the reference letter; e.g.:

1. In the reference list – “(h) Title 10, United States Code”

2. On initial citation – “pursuant to section 7890 of Title 10, United States Code (Reference (h))”

3. On subsequent citation – “pursuant to sections 1234 and 5678 of Reference (h)”

(b) If a codified act is more well known by a “common name,” it may be cited within the body of the issuance by referring to the codified information first, then the common name (e.g., “pursuant to section 2170 of Title 50, United States Code Appendix, also known and referred to in this manual as “The Defense Production Act of 1950,” as amended (Reference (g)).”). Further references in the DoDM will state “The Defense Production Act of 1950.” Within the Reference section, the citation should reflect the same format and include the information that the Act has been amended, if appropriate (see Figure 6, Reference (k)).

(2) PL. In the reference list, cite the PL title and date; if citing more than one section of a PL in your issuance, don’t list the individual sections. In the text, cite the specific section that pertains to the text, followed by the reference letter.

4. AMENDMENTS AND CURRENT EDITIONS. Many government publications are now maintained on the Internet and are amended or updated electronically.

a. Citations of PLs and E.O.s that may be amended by subsequent laws should include the original publication date and note that it has been amended – e.g., Executive Order 13178, “Northwestern Hawaiian Islands Coral Reef Ecosystem Reserve, “December 4, 2000, as amended (in this case the E.O. was amended by E.O. 13196 in 2001) You won’t document what has amended the PL or E.O. in the DoDM, as this information is easily found online.

b. Documents that are maintained online and have multiple or undefined publication dates use the citation “current edition” in place of the publication date in the reference list.

(1) DoD 7000.14-R, “Department of Defense Financial Management Regulations (FMRs),” current edition (16 volumes in the Regulation; each volume has a different publication date and is updated online)
(2) Joint Publication 1-02, “Department of Defense Dictionary of Military and Associated Terms,” current edition (Maintained online and updated regularly)

Figure 7. Purpose Statements When the Chartering DoDD Provides the Purpose

Sample 1. For a new DoDM:
1. PURPOSE. In accordance with the authority in DoD Instruction 7750.07 (Reference (a)), this manual implements policy, assigns responsibilities, and provides procedures for managing the DoD Forms Program.

Sample 2. For a reissuance of a DoDM:
1. PURPOSE. This manual reissues DoD 7000.3-M (Reference (a)) in accordance with the authority in DoD Instruction 7000.03 (Reference (b)) to implement policy, assign responsibilities, and establish mandatory procedures for the uniform interpretation and comparison of programs designated as major weapon system acquisitions.

Sample 3. For a reissuance of a DoD publication as a DoDM:
1. PURPOSE. This reissues DoD 7000.3-G (Reference (a)) as a DoD manual in accordance with the authority in DoDI 7000.03 (Reference (b)) and the guidance in DoDI 5025.01 (Reference (c)) to implement policy, assign responsibilities, and provide procedures for the uniform interpretation and comparison of programs designated as major weapon system acquisitions.

Figure 8. Purpose Statements When the Chartering DoDD Does Not Provide the Purpose

For a new DoDM:

1. PURPOSE. In accordance with the authority in DoD Directive 5105.53 (Reference (a)), this manual implements policy, assigns responsibilities, and provides procedures for managing the DoD Forms Program pursuant to DoD Instruction 7750.07 (Reference (b)). [issuance providing purpose].

For a reissuance:

1. PURPOSE. This manual reissues DoD Manual 5400.7 (Reference (a)) in accordance with the authority in DoD Directive 5400.07 (Reference (b)) to implement section 552 of Title 5, United States Code (Reference (c)) and incorporate the provisions of Executive Order 13392 (Reference (d)). [issuances providing purpose].
Figure 9. Purpose Statements That Cancel Another Issuance

When the chartering DoDD does not provide the purpose and the references are listed in Enclosure 1.

Sample 1. For a new DoDM:
1. PURPOSE. In accordance with the authority in DoD Directive 5000.02 (Reference (a)), this manual:

   a. Implements policy, assigns responsibilities, and provides procedures for the operation of the contractor cost data report and software resources system in accordance with DoD Instruction 5000.02 (Reference (b)).

   b. Incorporates and cancels the interim guidance in Director of Program Analysis and Evaluation Memorandum (Reference (c)).

Sample 2. For a reissuance:
1. PURPOSE. This manual:

   a. Reissues DoD 5000.02-H (Reference (a)) as a DoD manual in accordance with the authority in DoD Directive 5000.02 (Reference (b)) and the guidance in DoD Instruction 5025.01 (Reference (c)).

   b. Implements policy, assigns responsibilities, and provides procedures for the operation of the contractor cost data report and software resources system in accordance with DoD Instruction 5000.02 (Reference (d)).

   c. Incorporates and cancels the interim guidance in Director of Program Analysis and Evaluation Memorandum (Reference (e)).

SAMPLE APPLICABILITY STATEMENTS

Figure 12. Standard Applicability Statement

Always use the standard applicability statement, which includes the Coast Guard when operating as a Service in the Navy pursuant to law. The Secretary and Deputy Secretary of Defense are the OSD authority in this statement. OSD Component heads aren’t considered to be included in the term “DoD Component head.”

2. APPLICABILITY. This [manual/volume] applies to OSD, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (referred to collectively in this [manual/volume] as the “DoD Components”). Delete the final, parenthetical remark if the term “DoD Components” is not used in the issuance.

Figure 13. Standard Statement All-Inclusive of the Coast Guard

When the DoDM applies to the Coast Guard at all times, always use the standard statement that is all-inclusive of the Coast Guard. The Coast Guard must be a primary coordinator during formal coordination and responsibilities and procedures in the issuance must specify what is being required of the Coast Guard.

2. APPLICABILITY. This [manual/volume] applies to OSD, the Military Departments (including the Coast Guard at all times, including when it’s a Service in the Department of Homeland Security by agreement with that Department), the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities within the DoD (referred to collectively in this [manual/volume] as the “DoD Components”).

Figure 14. Statements That Qualify the Standard Applicability of a Single-Volume DoDM or of a Multi-Volume DoDM in its Entirety

When the DoDM applies to organizations not listed in the standard statement:

2. APPLICABILITY. This [manual/volume] applies to:

a. [Standard statement.] Always place the standard statement first.

b. The Commissioned Corps of the Public Health Service, under agreement with the Department of Health and Human Services, and the Commissioned Corps of the National Oceanic and Atmospheric Administration, under agreement with the Department of Commerce.
Figure 14. Statements That Qualify the Standard Applicability of a Single-Volume DoDM or of a Multi-Volume DoDM in its Entirety, Continued

When the DoDM does not apply in certain circumstances:

2. APPLICABILITY. This [manual/volume]:
   a. Applies to [standard statement].
   b. Doesn’t apply to:
      (1) Requests for information made in accordance with DoD Directive (DoDD) 5400.07 (Reference (c)), which are processed in accordance with DoD Manual 5400.07 (Reference (d)).
      (2) Requests for information from systems of records controlled by the Office of Personnel Management, which are processed in accordance with parts 293, 294, 297, 735, and 736 of Title 5, Code of Federal Regulations (Reference (e)).
      (3) Requests for personal information from the General Accountability Office, which are processed in accordance with DoDD 7650.01 (Reference (f)).
      (4) Requests for personal information from Congress, which are processed in accordance with DoDD 5400.4 (Reference (g)).

Figure 15. Statements That Qualify the Applicability of a Single Volume of a Multi-Volume DoDM

When the subject volume does not apply in certain circumstances:

2. APPLICABILITY
   a. Manual. This manual applies to [standard statement and any qualifying statements that pertain to the manual in its entirety (see Figure 15)].
   b. Volume. This volume does not apply to fill actions when such actions would detract from ongoing equal opportunity programs, i.e., when fill actions would have an adverse impact on programs for persons with disabilities, for achievement of minority and gender equality, or for affirmative employment of veterans.

When the subject volume does not apply to certain persons in (or sub-elements of) the organizations in the standard statement:

2. APPLICABILITY
   a. Manual. This manual applies to [standard statement and any qualifying statements that pertain to the Manual in its entirety (see Figure 15)].
   b. Volume. This volume does not apply to active duty military members; DoD contractors, current or former employees of contractors, or applicants for employment with contractors; current or former employees of, or applicants for employment with, the Army and Air Force Exchange Service; or local nationals employed by the DoD outside of the United States.
Figure 15. Statements That Qualify the Applicability of a Single-Volume of a Multi-Volume DoDM, Continued

When the subject volume applies only to certain persons in (or sub-elements of) the organizations in the standard statement:

2. APPLICABILITY

a. Manual. This manual applies to [standard statement and any qualifying statements that pertain to the Manual in its entirety (see Figure 15)].

b. Volume. This volume applies only to civilian air traffic control positions within the DoD.
ENCLOSURE 6
SAMPLE POLICY STATEMENTS

Figure 16. Policy Statements for Single-Volume DoDMs or for All Volumes of a Multi-Volume DoDM

When the statement summarizes the policy in one policy issuance:

4. POLICY. It’s DoD policy in accordance with Reference (a) that information assurance will be implemented in all system acquisitions throughout the entire life cycle of the acquisition.

When the statement summarizes the policy in more than one issuance:

4. POLICY. It’s DoD policy in accordance with Reference (a) that the DoD will have a single source of standards of ethical conduct and ethics guidance. These standards will include direction in the areas of financial and employment disclosure systems, post-employment rules, enforcement, and training pursuant to Reference (b).

Figure 17. Policy Statements Including a Volume-Specific Paragraph

For one volume of a multi-volume DoDM when the statement summarizes the policy in one policy issuance:

4. POLICY. It’s DoD policy in accordance with Reference (b) to:

   a. Develop uniform civilian personnel policy, responsibilities, and procedures for DoD-wide application that reflect, to the maximum extent practicable, a total force perspective. Statement applying to the DoDM in its entirety, included in all volumes.

   b. Employ well-trained, knowledgeable, and competent air traffic controllers who have the capacity to perform the essential functions of their positions without risk to themselves or others. Volume-specific statement.

For two volumes of the same multi-volume DoDM when the statement summarizes the policy in more than one issuance.

Sample 1. For the first volume:

4. POLICY. It’s DoD policy to:

   a. Establish and maintain safe, effective, and environmentally sound integrated pest management programs to prevent or control pests that may adversely impact readiness or military operations, in accordance with Reference (a). Statement applying to the DoDM in its entirety.

   b. Actively promote, implement, monitor, and measure procedures to ensure the elimination of pests that use wood as a host, in accordance with Reference (b). Specific statement for Volume 1.

Sample 2. For the second volume:

4. POLICY. It is DoD policy to:

   a. [Same statement as for Volume 1.]

   b. Maintain and enforce the standards for certification of pesticide applicators in this volume in accordance with Reference (c). Specific statement for Volume 2.

RESPONSIBILITIES

1. **UNDER SECRETARY OF DEFENSE FOR INTELLIGENCE (USD(I)).** In addition to the responsibilities in section 3 of this enclosure, the USD(I): In this example, responsibilities are assigned to the OSD Component heads collectively as well as individually.

   a. Establishes and oversees the DoD OPSEC Program and provides policies and procedures for DoD Component implementation of the program, including monitoring, evaluating, and periodically reviewing all DoD Component OPSEC programs.

   b. Provides reporting guidance to the DoD Component heads prior to the end of each fiscal year.

   c. Compiles and analyzes DoD Component reports, and reports annually to the Secretary of Defense on the status of the DoD OPSEC Program.
Figure 19. Assigning Responsibilities in an Enclosure, Continued

2. UNDER SECRETARY OF DEFENSE FOR POLICY (USD(P)). In addition to the responsibilities in section 3 of this enclosure, the USD(P):

   a. Coordinates international cooperation agreements involving the planning and execution of OPSEC.

   b. Reviews all Combatant Commander operations and contingency plans to ensure OPSEC integration.

3. DoD AND OSD COMPONENT HEADS. The DoD and OSD Component heads:

   a. Implement the procedures prescribed in this manual and ensure that supplemental Component guidance and procedures are in accordance with Reference (a) and this manual.

   b. Integrate OPSEC in all activities and operations that prepare, sustain, or employ the Military Services during war, crisis, or peace including, but not limited to:

      (1) Research, development, test, and evaluation.

      (2) Special access programs.

      (3) DoD contracting.

      (4) Treaty verification.

      (5) Nonproliferation protocols.

      (6) International agreements.

      (7) Force protection.

      (8) Release of information to the public.

   c. Maintain an OPSEC program managed by a full-time program manager at the senior level who’ll be responsible for the direction and administration of the program in accordance with Enclosure 3.

   d. Identify critical information and develop policies and procedures for its protection.

   e. Plan, program, and budget for implementing and maintaining OPSEC programs.

DTM  directive-type memorandum

Executive Agent

Executive order  “Executive” is always capitalized when it refers to the President or to the Office of the President. Use title case for “order” only when referring to a specific Executive order, e.g., “Executive Order 11111”.

Federal Register

Joint publication  Use lower case when the term is not a proper noun. Failure to do so is a common error in draft DoD issuances. Examples of other frequently used common nouns that shouldn’t be capitalized are “action officer,” “active duty,” “area of responsibility,” “peace operations,” “point of contact,” “public affairs” (unless referring to a specific public affairs office or official), “program budget decision” (unless referring to a specific program budget decision memorandum), and “memorandum of agreement” (unless referring to a specific memorandum).

PART II. DEFINITIONS

Terms in the Glossary should be those that are particular to the DoD issuance itself or are not accurately defined in a standard dictionary for your purposes. Terms will either be described as (a) for the purpose of this manual (or volume); (b) defined in another DoD publication; or (c) proposed for inclusion in the next edition of JP 1-02. Repetition of descriptive statements in the Glossary can be avoided by using the following general caveats:
These terms and their definitions are for the purposes of this [manual/volume].

Unless otherwise noted, these terms and their definitions and for the purposes of this [manual/volume].

List the terms being defined alphabetically; don’t number them. Capitalize them only if they are proper nouns. If an acronym has been established for a term, use the acronym; don’t write the term out (alphabetize by acronym). Leave one blank line between terms. If a definition requires subparagraphs, leave one blank line between them and indent the first line of the subparagraph to the first tab stop.

If your definition must always match the term as defined somewhere else (e.g., Joint Publication 1-02, other DoD issuances, or other Government publications (e.g., Executive orders, Public Law, the Code of Federal Regulations, the United States Code), to avoid inconsistency don’t repeat the definition. Instead, cite the issuance or publication in which the term’s defined as a reference in place of the definition, e.g., “DoD EA. Defined in Joint Publication 1-02.”

If you believe a definition should be in JP 1-02 (go to DoDI 5025.12 for the establishing criteria for terms with DoD-wide applicability), place this statement at the end of the definition: “This term and its definition are proposed for inclusion in the next edition of Joint Publication 1-02.” The SD 106 prepared for formal coordination must include the statement that a term has been nominated for inclusion in JP 1-02.

DoDD. A DoD issuance that exclusively establishes policy, assigns responsibility, and delegates authority to the DoD Components. DoDDs will not contain procedures. They must be one of these two types of issuances:

- chartering DoDD. A DoDD that establishes the mission, responsibilities, functions, relationships, and delegated authorities of an OSD Component head or other OSD PAS official, a Defense Agency or DoD Field Activity director, or other major DoD or OSD Component head, as required. Also referred to as an “organizational charter,” “charter Directive,” or, in DoDI 5025.01, as a “charter.” Chartering DoDDs comprise a unique DoDD format, developed by O&MP in coordination with DD, and are relieved from the 10-page limit for DoDDs. Chartering DoDDs must be signed by the Secretary or Deputy Secretary of Defense. An exception is made for Under Secretaries of Defense delegated the appropriate authority in their chartering DoDDs; if this authority is delegated, the Under Secretaries of Defense may sign chartering DoDDs for their subordinate OSD PAS positions when the charter is reissued.

- direct oversight DoDD. A DoD issuance, no more than 10 pages in length including enclosures, reserved for subjects requiring direct oversight by the Secretary or Deputy Secretary of Defense, approved and signed only by the Secretary or Deputy Secretary of Defense, and consisting only of one or more of these types of information:

   Non-delegable responsibilities assigned to the Secretary or Deputy Secretary of Defense.

   Assignment of functions and resources between or among the DoD and/or OSD Component heads. More specifically, this is when the fundamental responsibilities, functions, or authorities of the Component head are being defined or redefined. These major assignments should not be confused with the collateral functions routinely mentioned in an issuance in which an OSD Component head assigns a responsibility to (and coordinates with) another Component head to
perform a task within an assigned functional area.

DoD EA assignments, which consist of the designation of a DoD EA and the assignment of related responsibilities and authorities.

Matters of special interest to the Secretary or Deputy Secretary of Defense such as advisory boards or urgent operational or military matters. They may be items selected by the Secretary or Deputy Secretary or recommended by an OSD Component head.

**DoDI.** DoDIs consist of two types. DoDIs must be no more than 50 pages in length including enclosures. DoDIs exceeding 50 pages in length must be separated into two or more volumes.

- **non-policy DoDI.** A DoDI that **implements** policy established in a DoDD or a policy DoDI by providing general, overarching procedures for carrying out that policy. Non-policy DoDIs must be signed by the OSD Component heads, their Principal Deputies, or the OSD PAS officials as authorized by their chartering DoDDs.

- **policy DoDI.** A DoDI that **establishes** policy and assigns responsibilities within a functional area assigned in an OSD Component head’s chartering DoDD, including defining the authorities and responsibilities of a subordinate official or element when these do not meet the criteria for a chartering DoDD. Policy DoDIs may also provide general procedures for implementing that policy. Policy DoDIs must be signed only by an OSD Component head. Policy DoDIs must include the Component’s chartering DoDD as a reference and, for the Components whose chartering DoDDs have **not** been updated to include the authority to issue policy in DoDIs, they must include DoDI 5025.01 as a reference.

**DoDM.** A DoD issuance providing detailed procedures for implementing policy established in DoDDs and policy DoDIs. DoDMs must include the specific, procedural information formerly published as DoD publications. Although all DoD publications are now categorized as DoDMs, those that do not specifically state that they are DoDMs (i.e., catalogs, compendiums, directories, handbooks, indexes, inventories, lists, modules, pamphlets, plans, series, standards, supplements, and regulations) must be converted into DoDIs or DoDMs when they are reissued. DoDMs must be signed by the OSD Component heads, their Principal Deputies, or the OSD PAS officials as authorized by their chartering DoDDs. DoDMs exceeding 100 pages in length must be separated into two or more volumes.

**DoD publication.** A former type of DoD issuance that provides detailed procedures for implementing policy established in DoDDs and DoDIs. DoD publications include these types of issuances approved and signed before October 28, 2007: catalogs, compendiums, directories, handbooks, indexes, inventories, lists, modules, pamphlets, plans, series, standards, supplements, and regulations. All DoD publications are now categorized as DoDMs.

**DTM.** A DoD issuance that establishes DoD policy or implements policy established in existing DoDDs and policy DoDIs; assigns responsibilities; and may provide procedures. DTM concerning subjects requiring direct oversight by the Secretary or Deputy Secretary of Defense
must be signed by the Secretary or Deputy Secretary of Defense. DTMs that establish policy must be signed by OSD Component heads. DTMs that implement policy must be signed by OSD Component heads, their Principal Deputies, or OSD PAS officials as authorized by their chartering DoDDs. DTMs will be issued only for time-sensitive actions and only when time constraints prevent publishing a new issuance or incorporating a change to an existing issuance. DTMs must not be used to permanently change or supplement existing issuances. They will be effective for no more than 12 months from the date signed, unless extended in accordance with DoDI 5025.01. “Time sensitive” actions are those that are:

- Directed by Executive order;
- Directed by the Secretary or Deputy Secretary of Defense;
- A matter of urgent national security;
- A matter of urgent DoD policy as determined by an OSD Component head;
- Required by recent (less than 3 months) change in law, statute, or government-wide regulation; or
- Necessary to prevent imminent danger to life and health.

**formal information collection title.** The formal title given to an information collection for the purposes of identification when submitted to respondents. The formal information collection title must be provided on the SD Form 455, “Request for Approval of Information Collection” or the OMB Form 83-I, “Paperwork Reduction Act Submission” during the registration and licensing process.

**information collection.** The functional area expression of need for data or information to carry out specified and authorized functions or for management purposes that require the establishment or maintenance of forms and formats, or reporting or recordkeeping systems, whether manual or automated.

**information collection request.** A written or verbal report, application, form, schedule, survey, questionnaire, reporting or recordkeeping requirement, or other similar method calling for the collection of information.
